bulmor

ELECTRIC CONCRETE MIXER

for internal concrete transport

STRONG.

Robust carrier vehicle with innovative construction.

EFFICIENT.

High endurance and easy maintenance.

INTELLIGENT.

Smart operation via display in the cabin.

POWERED by bulmor

CONCRETE TRANSPORT – BY ELECTRICITY

Emission-free and quiet transport of up to 12 tonnes of filling volume

Rethinking LOGISTICS

In an extensive concrete-based project, not every work area can be served by conveyor belt or crane bucket. For unusual work positions in particular, the Bulmor concrete mixer comes into its own.

FLEXIBILITY in production

The truck mixer brings fresh concrete to the exact locations for production, when and where it is needed.

E POWERED by bulmor

SPACE - SAVING TRANSPORT

that uses the existing production lanes

- **80V battery** (1240Ah) in the chassis with lateral changing unit
- **Sufficient capacity for several days' use**
- **3000 mm width**
- Max. 680 mm inner **turning radius**
- Approx. **3750 mm height** *incl. chute* Height of inlet chute variable to suit customer requirement
- **2x20 kW drive motor 45 kW mixer motor** with high torque

Comprehensive safety equipment

- Equipped for legal on-road use
- LED working spotlight
- Acoustic reverse warning system and safety lights
- Additional premium cameras for good all-round view
- Warning light on roof
- Electronics protected against splash water
- Level compensation on uneven ground
- Maximum speed can be individually set

Comprehensive special equipment

- Multi-function display
- Sun blind
- Bluetooth radio
- Electric heating
- Central lubrication system for chassis and mixing drum
- Water connection point to concrete mixer
- Wireless remote control for mixing drum
- mybulmor fleet management

SIMPLE TO OPERATE

with individual pre-selection buttons or display

bulmor

HIGH USABILITY

Optional
Wireless remote control for clockwise/anticlockwise rotation of drum

- EXTREMELY MANOEUVRABLE
- QUIET TRAVEL THANKS TO ELECTRIC DRIVE
- PREMIUM CABIN AS STANDARD
- FULL VIEW ON LOADING PROCESS
- START OF LOADING AND DISCHARGE PROCESS
- VIA PRE-SELECTION BUTTONS OR DISPLAY
- EASY ACCESS TO MAINTENANCE AREAS
- DIGITAL VEHICLE CHECK WITH MYBULMOR

E POWERED by bulmor

optional
Mech. adjustable discharge chute

SPECIAL SOLUTIONS AS STANDARD

Trusted sideloaders as the carrier vehicle

STRONG SOLUTIONS

In collaboration with our customers
we have applied our technical know-how
to focus on developing
strong solutions for heavy-duty applications.

TECHNICAL KNOW-HOW FOR GREATER

PRODUCTIVITY

mybulmor

Optionally, the machine can be equipped
with our fleet management tool, mybulmor.
This provides you with important
performance indicators – which you
can download conveniently from the dashboard.

bulmor

Typical BULMOR

smart among the strong

The machines in the BULMOR fleet stand for power and robustness, as well as efficiency and safety.
Every machine is created using the experience and genes of more than 45 years of experience in the field of forklift construction. With this strength, coupled with today's modern technical know-how, **we build smart solutions for strong operations.**
