PALLET TRUCK

Move heavy loads quickly and safely

Typical VOTEX BISON

smart among the strong

The Machines in the BULMOR fleet stand for power and robustness, as well as efficiency and safety.
Every machine is created using the experience and genes of more than 45 years of experience in the field of forklift construction. With this strength, coupled with today's modern technical know-how, we build smart solutions for strong operations.

STRONG.
High stability
and longevity

EFFICIENT.
Maximum endurance
and easy maintenance

INTELLIGENT.
Smart technology

Electric pallet truck **from 5 to 30 tonnes**

EGH series 5-30 tons

Due to its compact size, the electric pallet truck from the EGH series is a powerful transport aid for heavy loads from 5 to 30 tons.

Whether heavy or large goods - thanks to the **ergonomic operation**, the driver always has control over the load. For longer transport routes, the **comfortable, foldable driver's platform** offers a safe and quick journey.

The design of the pallet truck is modular, but can be **customized** according to dimensions, capacity and structure. These make the device a **reliable transport device for heavy loads.**

Assisted easy steering

- **Drawbar with integrated driving switch, steering assistance, start-up safety switch and emergency stop switch**
- **Drawbar in end position coupled with magnetic brake**

Efficient travel drive

- **Strong and stepless acceleration through AC motors and fast change of direction**
- **Maintenance-free drive motor or motors without carbon brushes**

Robust vehicle construction

- **Massive welded construction in compact design or split body with heart bolt connection**

Options & special devices

Folding or fixed driver's station
Customized platforms and attachments possible
Radio remote control, camera systems,
battery charger and much more.

Transport heavy loads
